CASE STUDY

MANAGED KEY MANAGEMENT · PROFESSIONAL SERVICES · AMERICAS

A global professional-services firm hands day-to-day key management on Azure Key Vault to eMudhra

Managed services from eMudhra keep cryptographic keys and secrets in Microsoft Azure Key Vault secure, governed and monitored.

SECTOR	REGION	SOLUTION	
Professional services	Americas	Managed Key Management	LIVE

IMPACT AT A GLANCE

Expert-run
key operations by PKI specialists

1 partner
accountable for key management

Governed
access to every key and secret

2 years
of managed-service commitment

THE CUSTOMER

The customer is an entity of a global professional-services network. Its systems rely on cryptographic keys and secrets held in Microsoft Azure. It engaged eMudhra to manage that key infrastructure on its behalf.

THE CHALLENGE

Keys and secrets protect client data, but managing them well needs specialist skills that most teams do not have in-house.

1

Specialist skills

Key management needs PKI and cryptography expertise to run safely day to day.

2

Client trust

As a professional-services firm, protecting client data is central to its reputation.

3

Governance

Access to keys and secrets must be controlled, monitored and auditable.

THE GOAL Specialist, accountable management of cryptographic keys and secrets in Azure Key Vault.

THE SOLUTION

eMudhra provides managed services for the firm's Microsoft Azure Key Vault over a two-year term.

Azure Key Vault

Keys, secrets and certificates stored in Microsoft's managed vault service.

Managed operations

eMudhra's PKI specialists handle configuration, rotation and day-to-day operations.

Access governance

Access to keys and secrets is controlled and reviewed.

Monitoring

Ongoing monitoring and reporting on key-vault activity.

WHAT THE CUSTOMER NEEDED	HOW EMUDHRA DELIVERED
Secure storage for keys and secrets	Microsoft Azure Key Vault
Expert operations	eMudhra managed services
Controlled access	Governed access and reviews
Visibility	Monitoring and reporting
Continuity	Two-year managed-service term

RESULTS

What changed for the customer

- Keys and secrets are held in Azure Key Vault under specialist management.
- Day-to-day key operations are handled by eMudhra's PKI team.
- Access to sensitive keys is controlled and auditable.
- The firm has one accountable partner for key operations over two years.
