

emSigner: Driving Paperless Transformation, Building Efficiency

Did you know that emSigner is the paperless office solution that is trusted by some of the world's most prestigious and security-conscious organizations for secure document management? This includes the likes of Amazon, Cisco, IBM, Infosys, TATA, Wipro and many more.

Wondering what is the reason for this? Well, here are some of the reasons:

- emSigner allows you to digitally sign invoices in serial, parallel or bulk from anywhere, through any device instantly, thus enabling effective paperless office transformation
- emSigner's audit trail coupled with support for multiple types of digital signatures enables it to meet or exceed regulatory requirements such as EU eIDAS legislation, US ESign Act, UETA, Indian IT Act and many more
- By utilizing a host of innovative strategies — from high-end encryption and multi-factor authentication to providing granular levels of data access and masking of personal data of users — emSigner offers a perfect blend of utility, convenience, and security
- emSigner's inbuilt hybrid QR code supports online validation of documents by utilizing QR readers and offline verification by using emSigner app. This unique ability can mitigate risks originating from forgery of documents

This is just the tip of the ice berg. Go through emSigner product video [here](#) to get acquainted with the prowess of eMudhra's unique paperless office suite.

There are plenty of other ways in which emSigner can augment your operations. Get in touch with us at eservices@emudhra.com to learn more.
