

Issue Diplomas in Bulk Using emSigner

e-Diploma

Did you know that the average number of students enrolling undergraduate programs in top 1000 ranked institutions around the globe last year was 6,316? This number jumps up to 45000+, when you consider the average among the 10 institutions with the highest undergraduate enrollments. (Source: U.S. News)

Now consider the amount of time and effort it takes for the Registrar's office of each of these institutions to print, sign and issue diplomas to these many number of students after completing the course of study. Overwhelming isn't it!

Why not take the burden of above mentioned cumbersome tasks off the shoulders of the Office of University Registrar and allow them to concentrate on their core job by using emSigner. This innovative paperless solution that is powered by PKI technology will not only enable the Office of University Registrar to seamlessly generate digital copies of official transcripts, but also authenticate and make them tamper-proof by using digital signatures

Here are some highlights of emSigner suite:

- emSigner can pull data from any server and feed them into a document creation engine to generate digital diplomas in bulk
- emSigner allows you to add authenticity and integrity to e-diplomas by electronically signing them using legally valid Digital Signature
- Using emSigner, you can embed a secure QR code in the e-diplomas, which can be used by anyone to verify the authenticity of digital diplomas when printed
