

emSigner: Minimizing Disruptions, Maximizing Productivity in Auto Dealerships

Does your auto dealership want to save time on filing, signing and retrieving important documents; save money on expensive commercial real estate, paper, labor, and other associated costs; and better serve the clients by accurately tracking necessary documents? Then emSigner is the solution that is tailor made for your dealership.

Our paperless office solution, which is built on top of a powerful workflow management and document signing engine with enhanced mobile capabilities, will automate and streamline several previously paper-intensive processes including storage, management and signing of dealer agreements, contracts, tax compliance documents, auto invoices, purchase orders, warranty forms, check-in sheets, trade-in sheets, deal jackets, finance applications, work orders, etc. In the process it will transform your auto dealership into lean and mean machine, which is productive and efficient.

Here are some of the highlights of emSigner:

- emSigner gives the liberty for signers to review and sign documents individually or in bulk
- emSigner supports most global signature standards including the US eSign Act, eiDAS, Indian IT Act, UNCITRAL Model Act and more
- emSigner can be easily integrated with client's existing back-end systems (using API integration)
- PKI based digital document storage and transfer
